Please be aware of the Austrian “Ökostromverordnung 2010”, especially § 2.1, and potential reasons for rejection of your application:

- The construction of a solar facility is prescribed by law (e.g. Real Estate Subsidy).
- There is a district heat connection.
- Another board has already granted a subsidy on the solar facility (exclusion of parts that have not been subsidized yet).
- The subsidy limit has already been reached this year.
